# PELCO™

## SWM5-W/SWM5-B
## Wall Mount

## Indoor Only

**C2223M-B (2/18)**

# Important Safety Instructions

1. Read these instructions.

2. Keep these instructions.

3. Heed all warnings.

4. Follow all instructions.

5. Only use attachments/accessories specified by the manufacturer.

6. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

7. Installation should be done only by qualified personnel and conform to all local codes.

8. Use only installation methods and materials capable of supporting four times the maximum specified load.

9. Use only replacement parts recommended by Pelco.

# Description

The SWM5-W/SWM5-B wall mount is specifically designed for the Spectra® Mini dome system. The mount offers full feedthrough connections for a clean installation with no exposed wires.

C2223M-B  (2/18)

# Installation

The following parts are supplied:

1  Adapter plate with locking screw

1  Wall mount

2  8-15 x 0.75-inch screws (Used to attach the dome drive to the mount.)

**NOTE:** The hardware to mount the adapter plate to the junction box (See Figure 1 below) is not included.

To install the SWM5-W/SWM5-B wall mount:

1. Run power, video (coax or UTP), and camera control wiring to the mounting location. If you are using coax video, do not attach a BNC connector to the cable until step 5. Refer to Table D, Table E, and Table F in the installation manual for the Spectra Mini dome for wiring information.

2. Thread the power, video (coax or UTP), and control wiring through the large access hole in the adapter plate. Then attach the adapter plate to the mounting surface using either the top/bottom or left/right pair of mounting holes. (The top/bottom pair is shown in Figure 1.)

   **NOTE:** If mounting to anything other than a junction box, select appropriate mounting hardware for the mounting surface.

**Figure 1.** Mounting the Adapter Plate

3. Thread the wiring through the wall mount, and then attach the mount to the adapter plate:

    a.    Locate the mount hooks in the mount. Hang these hooks onto the adapter plate guides.

    b.    Make sure all wires are enclosed in the mount.

    c.    Rock the mount into place.
**Figure 2.** Attaching the Mount

4.  Lock the mount:

    a.  Locate the slide lock at the base of the mount. Slide it to the right to secure the mount.

    b.  Turn the locking screw counterclockwise until the slide lock is secured.

**Figure 3.** Locking the Mount

5.  If you are using coax video, attach a female BNC connector to the coax cable.

6.  Install the Spectra Mini dome in the mount. Follow the instructions in the *Switch Settings* and *Hard Ceiling* installation sections of the installation manual for the Spectra Mini dome system. In the *Hard Ceiling* section, disregard step 2 about cutting holes in the ceiling. In step 5 of the same section, attach the dome drive to the mount with the two 8-15 x 0.75-inch screws that are supplied with the mount.

# Specifications

## MECHANICAL

Mounting Method      Attach the mount to wall; or attach to a junction box.

## GENERAL
Construction
     Mount             ABS plastic
     Adapter Plate      Aluminum

Finish                White (SWM5-W) or Black (SWM5-B)

Weight             0.72lb (0.33 kg)

NOTE: VALUES IN PARENTHESES ARE CENTIMETERS; ALL OTHERS ARE INCHES.

                C2223M-B (2/18)
